

BBH-10 "COMBI" BEAD BREAKER

The BBH-10 is ideal for use with all truck, farm tractor, grader, combine and skidder tires. The air hydraulic movement works on all types of rims except 5-piece earthmover rims. Can be used without removing the wheel and will not damage the bead or rim. No screws, bolts or attachments. Can be used with Haltec model AHP-20 pump, AHP-15 pump or equivalent 10,000 psi pump.

TALON-1 OTR BEAD BREAKER

- Works on both front and back wheel without dismounting wheel from vehicle
- Works on all new 3 piece 25" wheels or larger
- Works on all wheels with CAT "Shur-Lok" safety feature
- A must tool for all trucks

OTR-1825 BEAD BREAKER

Off-the road bead breaker tool. Used on 25" to 51" 5-piece rims with pry bar pockets. Has 4 1/4" stroke and is designed to break earthmover tire beads on rusted rims. Can be used with Haltec model AHP-15 pump or equivalent 10,000 psi pump, 17" length. Caterpillar conversion kit available. Order part OTR-1825CK.

OTR-2000 GIANT TIRE/WHEEL BEAD BREAKING TOOL

Designed for largest construction and off-road tires and wheels. Works on all 39", 45", 51" and 57" wheel sizes.

Can be used with Haltec model AHP-20 pump, AHP-15 pump or equivalent 10,000 psi pump.

Note: Due to design changes, the OTR-2000 frame and ram will not interchange with Goodyear TO-2000 tools. All other parts are interchangeable.

AHP-15 HYDRAULIC PUMP

- Fast-acting air hydraulic pump that can be used with all Haltec Bead Breakers
- 10,000 psi rated
- Capacity 3.5 qts.
- Oil Hose not included
- Polyglass reservoir

AHP-20H

- 8 foot hose with coupler for use on all hydraulic pumps.

AHP-20 HYDRAULIC PUMP

- Fast-acting air hydraulic pump that can be used with all Haltec Bead Breakers
- 10,000 psi rated
- Capacity 5 qts. oil
- Hose not included
- Polyglass reservoir
