

New Accessory Portfolio Announcement

January 12, 2023

Hug-A-Lug® Screw-on Portfolio Update – January 2023

Dear Alcoa® Wheels customer,

Howmet Wheels Systems recently revealed our next generation of 001861x Series of Hug-A-Lug® Screw-On lug nut covers. The enhanced design is 3.2" high to accommodate longer studs and provide a personalized bold look. Our new covers use an improved PC-ABS plastic for increased heat resistance and thicker chrome plating for industry leading durability and appearance. The new lug nut covers are also available in black.

Key Feature	Benefit
Screw-on Design	Most secure retention
3.2" Height	Accommodate longer studs
PC-ABS Plastic	Stronger and more heat resistant

Beginning March 1st, 2023 the 001851x Series Hug-A-Lug® nut covers will be transitioning to new part numbers. Please see table below for the replacement part numbers to be used on any new orders.
