

New Accessory Portfolio Announcement

January 12, 2023

Alcoa Rear Hub Cover Portfolio Update – January 2023

Dear Alcoa® Wheels customer,

Howmet Wheels Systems recently revealed our next generation Rear Multi-piece Screw-on hub cover system. The enhanced design provides a premium look that match the new front hub covers. Our new covers use an improved Hug-A-Lug® lug nut cover for increased heat resistance and have thicker chrome plating for industry leading durability and appearance. The new hub cover system is also available in black.

077185x

085000x

085100x

Key Feature	Benefit
Screw-on Design	Most secure retention
3.2" Height	Accommodate longer studs
PC-ABS Plastic	Stronger and more heat resistant

Beginning March 1st, 2023 the 077185x Series hub cover systems will be transitioning to new part numbers. Please see table below for the replacement part numbers to be used on any new orders.
